

18th December 2018

To Whom It May Concern:

Li Lei was my student in semester 1 (February to June 2018) for the 15 credits level 6 (year 2) course ISCG 6423 Database Design and Development and for the 15 credits level 7 (year 3) course ISCG 7421 Advanced Programme Development.

Li attended class regularly and punctually, participated in class discussions and displayed an eagerness to learn. Li, by working very hard and responding to feedback, achieved a high level of success in both of the courses.

I feel confident that Li will succeed in his career and would highly recommend him for a software development position. If you have any questions regarding this recommendation, please do not hesitate to contact me.

Yours faithfully

Simon Dacey

To Whom It May Concern

I have known Mr. Lei Li (student ID: 1494024) from February this year (2018). He had been my student on Internet and Webpage Development paper (level 6) and on Testing and Quality Assurance Management paper (Level 7) at Unitec. He achieved the highest grades during his study.

Lei is our exceptional student, who work hard and always can go extra mile in his projects, for example to add more interesting things to his work, some extra functionality, which make his work outstanding. Other example is Lei developed online Bug Tracking System (PHP, MySQL) with dynamic reporting system and graphical data presentation for dashboard. He can complete his work ahead of other students with a great and exceptional quality. He has a will to help other students to understand martials. He is a highly motivated person, with a great positive “can do” attitude, who can work independently and gain a new skill fast. I highly recommend Mr. Lei Li for any IT position, He will be a great and hardworking member of your team.
